

Overview

LegisWeb™ Professional is a legislative research and tracking tool for legislative staff, lobbyists, interest groups and corporations. LegisWeb provides an integrated dashboard with all the key information related to a piece of legislation. LegisWeb™ Professional also provides state-of-the-art bill tracking and reporting tools.

Key Features

Bill Tracking	
Tracked Bills List	Track any bill. Sort the list of tracked bills by bill number, last update, or author. List displays bill progress, hearing dates, current location and tracking info.
Tracking Fields	Pre-packaged tracking fields, including: Position, Priority, Status, and Assigned
Custom Tracking Fields	Unlimited custom fields (e.g. Client, Organization) to your bills.
Title, Subject, Notes	Title, Subject and Notes can be entered for your bills and edited at any time.
Activity Logging	Log your activities and other related events.
Document Attachments	Add document attachments and web links to your bills.
Filtered Lists	Create filtered bill lists (e.g. all opposed bills) for viewing and reporting.
Reporting	Pre-defined and custom reports in both HTML and PDF format.
Edit Bills	Download and edit bills in Word, WordPerfect, or Open Office.
Email Bill Links	Create emails with links to a bill. Allow non-subscribers to see bills.
Event Tracking	
Daily File	List of bills on the Daily File. Hyperlinks on each bill listed.
Committee Meetings	List of committee meetings with time, location, and list of bills on the agenda. Hyperlinks on each bill listed.
Calendar View	Calendar view showing both the legislative calendar and personalized events related to your tracked bills (e.g. committee hearing with your bill on the agenda)
Integrated Calendar	Your LegisWeb calendar can be exported to your favorite calendar tool (Outlook, Mac iCal, iPhone, Google, etc.) and integrated with your personal calendar.
Event Notification	Email notification of events related to your tracked bills such as: upcoming hearings, bill actions, amendments, gut & amend, author change, subject change, tracking change
Tracking Tools	
TOSA	Table of Sections Affected (TOSA) lists all the code sections that are affected by the current session bills. Shows the proposed action (add, amend, repeal) by each bill.
Bill Progress Chart	Bar chart showing the progress of all Senate and Assembly bills. Lists of bills in each stage.
Text Highlighting	Integrated text highlighting to easily locate words in a document. Automatically highlights search keywords.
Legislator List	Directory of Senators and Assembly Members with their bills and contact information
Committee List	List of Committees, members, staff, locations, and bills on the calendar

Key Features (continued)

Access to Legislative Content	
Measures	All measures available from 1993 through the current session.
Statutes	All statutes available from 1993 through the current session.
Codes	All 29 codes, plus the State Constitution. A table of contents is provided for each code.
History	The complete bill histories: readings, committee assignments, votes, and versions.
Prior Versions	All versions (introduced, amended, etc.) of all measures.
Votes	Committee and floor votes are presented in the measure history.
Analyses	Official Senate and Assembly Analysis documents. Legislative Counsel Digests
News and Videos	News feeds from <i>Capitol Weekly</i> . Committee and floor session videos from <i>CalChannel</i> .
Content Comparisons	
As Amends the Law™	Compares bill text with current law to display how the bill would change the law. Differences are color coded with strikethrough and underline.
Prior Version Comparison	Compares the text of any two versions of a bill to show how the bill has changed between the versions. Differences are displayed in redline.
Proposed changes	When viewing a code section, all proposed changes to the section can be displayed and compared to the current text.
Search	
Full-text Search	Full-text search of measures, statutes, codes and news. Keywords are highlighted in the resulting document.
Author Search	Measures can be searched by author name.
Video Search	CalChannel videos can be searched by date, house, meeting type and title.
Saved Searches	Searches can be saved and run at a future time.
Search Feeds	Saved searches can be made into news feeds and displayed in your favorite new reader (e.g. Yahoo, Google). The searches are automatically updated by the news reader.
Lookup	Measures and Statutes can be looked up by session, type, number and (optionally) version. Code sections can be looked up by section number.
Team Support	
Manage Teams	Add or delete team members. Change access privileges.
Share information	Share tracked bills, tracking fields, notes, saved searches, filters, etc.
Community Service – Free tools available to the public	
Search	Keyword search of bills, statutes and codes.
Document Viewing	See the text of bills, statutes and codes.
Reference Linking	Add bill links to news articles, web sites, forums, blogs, and other online content.
Public Comments	Add public comments to any bill.
